

ADMISSIONS PROCESS INFORMATION

A private, addiction treatment, in-resident, donor-funded program

TO THOSE WHO ARE APPLYING FOR OUR PROGRAM:

RESTORE has three homes. The Recovery Home is a residential treatment home for men at the beginning of the recovery process. Our men's and women's Structured Aftercare Homes are for people who have already been through a recovery program and wish to continue their sobriety journey with structured support.

All of our homes test for drug and alcohol use on a regular and unscheduled basis; we are committed to being a dry, and safe facility. Here are some other things you can expect during the admissions process.

You will be asked:

1. Are you taking any medications? You must disclose all medications that you are currently taking prior to admission in order to assess if your needs are appropriate for our program. *Daily Suboxone is not permitted however, the monthly shot may be permitted as long as the client has already received their first monthly shot prior to admission.
2. Are you on disability? If so, RESTORE is unable to accept your candidacy.
3. You may need to be tested for Covid before admissions. We follow all current county public health guidelines for testing and monitoring. This is subject to change based on the current recommendations.
4. Are you clean and sober and will you pass a drug test when entering the program? If you do test positive at intake, RESTORE is unable to accept you at this time.
5. Are you willing to:
 - Participate in a Faith-based program that is centered on growing your relationship with God?
 - Work the 12 Steps with a sponsor, attend three meetings a week, and finish the program - an average of 6-9 months?

Candidates should accept that:

1. There is the normal up to 90 day blackout period based on individual client need.
2. Once your blackout period is over, you may have family and selected friends come and visit you on time per week at the house. After a period of up to 2 months of in house visits, you will be able to ask for permission to visit family off sit.

3. For Aftercare: have an income and be actively engaged in activities that get you out of the house most of the day. For the Recovery Home: you will look for a job after your blackout period.
4. Must be actively working a Twelve-Step program with a sponsor, and attend at least 2 NA or AA meetings a week. Freedom counts as one of your meetings.
5. Mandatory Freedom class on Tuesday nights at New Hope Church.
6. Beyond Classes: Bible study and training will be provided, and you will be expected to participate in at least one class or training at all times. Some classes are in person, and some are on line. They will be assigned according to your personal needs.
7. Everyone attends (including Freedom and Beyond Classes) meetings 3 times per week. So this means that each week, a resident will attend Freedom, Beyond class, and one more AA/NA meeting.
8. Must pay monthly fees on time.
